Larger signs will require more than one variable angle mount

Recessed Frame Mount
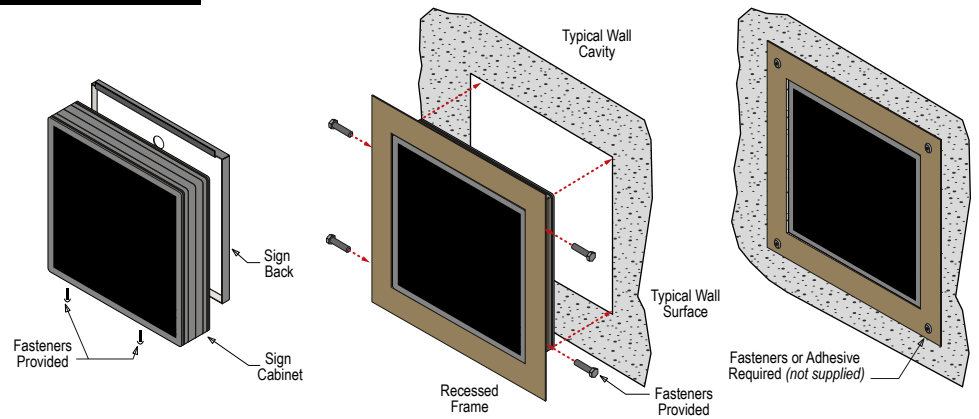

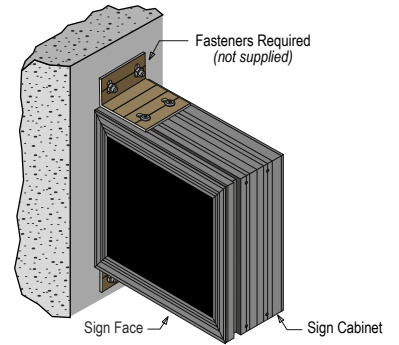

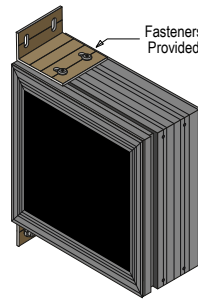

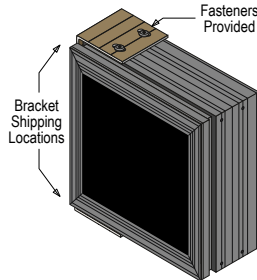

Step 1. Open sign by removing the screws on bottom lip of cabinet.

Step 2. Slide the Recessed Frame over the cabinet flush with the sign face. Drill into the cabinet using the holes in the Recessed Frame. Fasten frame to cabinet sides.

Step 3. Clear all aluminum chips from inside cabinet after drilling. Close cabinet and replace removed screws. Slide cabinet with frame into wall cavity.

Step 4. Secure frame and cabinet in wall cavity using appropriate fastening hardware or silicone adhesive between the frame and substrate.
