Overhead Clearance Signage

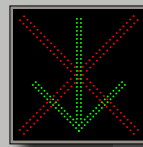

The I-Bar series clearance bars are built from rugged extended aluminum, come standard with a safety yellow painted finish with applied black reflective vinyl.

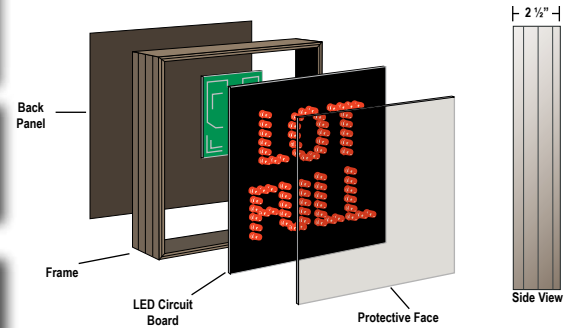

Customize the message and/or color of your Clearance I-Bar to fit your specifications.

Traffic Control Signals

Our cost effective LED and Incandescent traffic control signals make it easy to control traffic at your establishment. The TCIL series of LED traffic signals are energy efficient and long lasting. The TCI series traffic controllers use incandescent bulbs.

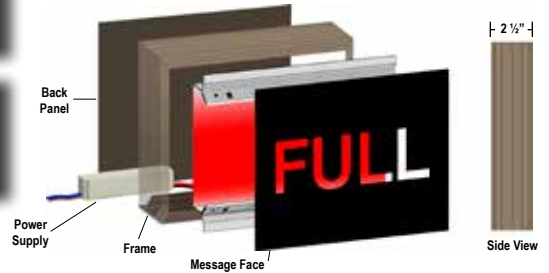

LED Direct View Breakaway

Customize the message and/or size of your highly visible energy efficient LED direct view or LED backlit blankout sign.

Phenix Blankout Backlit Breakaway

Post and Panel Signage

Any message, including your logo, can be applied to our Post and Panel signs. Directional Systems' Post and Panel directional signs are a great addition the outside of any facility.
